up to
30%
Reduction of on-hand quantities (5)

up to
20%
Increase in labor productivity

up to
20%
Reduction in accidents with real-time telematics

“AMCS Fleet Maintenance has been such an amazing program for our fleet. We have 5 terminals in different states and it helps me to keep track of all of them from one location with ease. Every time I want to utilize another part of the solution, I call the support line and there is always an answer followed by detailed instructions. AMCS helped us improve our organization and keeping track of truck maintenance throughout the company.”

Amber Elmore
Service Writer, D&A McRae

Rev up your bottom line with AMCS.

Performance Sustainability

AMCS offers comprehensive solutions to improve performance & increase visibility across your fleet operations. Optimizing data input will increase productivity & efficiency, reduce costs, & generate actionable insights while keeping your workers safer & happier.
